

GRANIT PARTS EXPANDS ITS RANGE OF SERVICES

In the future, GRANIT PARTS will secure original parts for diesel engines, special power units and systems of the German engine manufacturer Hatz. The wholesaler is thus further expanding its range of services for the construction machinery sector.

Heeslingen, May 4, 2022 – GRANIT PARTS is expanding its product portfolio as part of a cooperation with the engine manufacturer Hatz. As a world-renowned specialist for diesel engines in all fields of application, the manufacturer will, in the future, supplement the product range of the heavy-duty wholesaler, especially for the construction machinery sector.

As one of the world's leading diesel engine manufacturers, Hatz has extensive expertise in the research, development and production of efficient drive solutions and is known for the reliability and long service life of its entire product range. In addition to diesel engines, the Hatz product portfolio available from GRANIT also includes special power units from the Hatz Systems division with water pumps and power generators.

Everything from a single source at GRANIT PARTS

Since 2015, GRANIT PARTS has been offering a wide range of products related to construction machinery and telescopic loaders, in addition to spare parts and accessories for agricultural, gardening and forestry equipment. The family-run company is constantly expanding this range, so that customers now have access to products for machines from 18 manufacturers, from Atlas Copco to Merlo to JCB

As one of the leading spare parts wholesalers in Europe, GRANIT PARTS is a promising partner for Hatz. With its 90,000 square meter central warehouse in Heeslingen, the dealer is able to provide a comprehensive supply of spare parts
